

CHEESE

We love good cheese! Simon grew up with a family deli offering many unusual and different cheeses in the 80s, so our cheese list is something he is super passionate about.

Our Cheeses come served with artisan cheese biscuits & fig Relish.

1. LINCOLNSHIRE POACHER - ENGLAND

A hard cow's milk cheese, it was developed by 4th generation farming brothers Simon and Tim Jones, and is now made by their head cheesemaker Richard, on their idyllic dairy farm on the edge of the Lincolnshire Wolds. Savoury meets sweet with meaty, brothy, umami notes up front giving way to a fruity sweetness on the finish.

2. EPOISSES - FRANCE

Our favourite cheese EVER! Steeped in history, monks first made this unpasteurised cow's cheese in Burgundy in the 1600s. It is pungent (in a good way!) and a real cheese lovers cheese. Washed in Marc de Bourgogne brandy, it is rich, earthy and creamy

3. GORGONZOLA PICCANTE

A distinctly bolder, more assertive cheese than its soft and gentle siblings. Gorgonzola Piccante has a firmer paste with a close, dense, mouth-filling texture. The blue veins are more developed and lend the cheese an intense and spicy character. A decidedly grown-up, sophisticated and utterly delicious cheese
