RACHEL - SOMERSET, UK

This multi award winner is not your typical goat's cheese.

It's a semi hard, washed rind cheese with a delicate yet moreish sweet, mild flavour. It appeals to all with a plethora of flavours coming through including sweet milk and it has a pleasing melt in the mouth texture like a young Gouda. The cheese is named after a friend of our farm owner.

KEEN'S CHEDDAR

Keen's are one of only a small handful of farms who have survived the test of time and are making traditional cheddar the way it should be, with raw unpasteurised milk from grass fed cows living on our own farm. Cows spend most of their days living in a 500 acre back yard and dining on lush Somerset pastures, their precious milk is then transported a mere 50 yards to the dairy where the magic of true 'cheddaring' happens and the cheese then lives, maturing for up to 18 months.

BLUE MONDAY - COTSWOLDS, UK

A pasteurised blue cheese made by ex-Blur Bassist, Alex James, in the Cotswolds. It is a soft, creamy cheese with strong blue evening, in the style of a Gorgonzola Picante.
